

# CODEWEAVERS LTD – JOB DESCRIPTION

## TITLE: Infrastructure Engineer

REPORTS TO: Infrastructure Manager

### Location:

Codeweavers Ltd., Units 10-11, Imex Technology Park, Bellringer Road, Stoke on Trent  
Tel: 0870 443 0888

**Salary:** £23,000 to £25,000 per annum, dependent on experience

**Applications to:** Steve Jones (steve.jones@codeweavers.net) with your CV and a covering letter

### Overview:

The ideal candidate will have at least two years experience and will join the infrastructure team, which is responsible for the availability, management and support of all ICT elements of Codeweavers and clients.

### Job Purpose:

- to administer and manage the Codeweavers server infrastructure, which host business critical systems on behalf of customers and users
- to assist with ICT support for Codeweavers and it's clients
- to provide support to the Infrastructure team and other departments

### Key Duties and Responsibilities:

The role includes the following aspects - this list is not exhaustive however:

- ensure system uptime and availability is within SLA requirements, including appropriate DR and BCP strategies
- effectively manage the server infrastructure to ensure appropriate patching, capacity planning and reporting capabilities
- ensure the server infrastructure is appropriately upgraded, updated and protected against viruses and vulnerabilities
- create, configure and manage websites in a mixed platform environment
- manage software and hardware procurements relating to infrastructure and internal plans
- assist and advise other teams in their daily tasks

### Personal Skills:

At Codeweavers, we put a great deal of emphasis on the personal traits of our staff. Following an agile approach, Codeweavers are looking for people who are keen to learn and adapt to new environments and not just rest on the skills they have. Key traits include, but are not limited to:

- enthusiasm is key with an aptitude for taking on new responsibilities and tasks
- a professional and friendly approach to customers
- ability to deliver results and work under pressure
- pro-activeness and a desire to continually improve and develop the infrastructure

### About Codeweavers

Codeweavers are a rapidly growing solutions provider for the vehicle finance and insurance sector, with a high profile client base including Porsche, BMW, Autotrader, Daily Mail and Barclaycard.

Demonstrating a relaxed work atmosphere, Codeweavers prides itself as being technology innovators and an environment where people can help to mould and drive the technical advancements of the company.
